

Smart choice for power

Xantrex XW Hybrid Inverter/Charger

The NEXT generation inverter/charger for renewable energy systems and backup power applications

Xantrex brings the next generation of inverter/charger to market, with the XW Hybrid Inverter/Charger, the heart of the XW System. The XW Hybrid Inverter/Charger (XW) is a true sine wave, 120/240-volt AC, split-phase, inverter/charger that incorporates a DC to AC inverter, a battery charger, and an AC auto-transfer switch. It is the foundation for battery-based residential and commercial applications up to 18 kilowatts (kW). Capable of being grid-interactive or grid-independent, the XW can operate with generators and renewable energy sources to provide full-time or backup power.

Designed with consultation and input from industry experts, dealers, and installers, the XW sets a new standard for battery-based inverter/chargers. Integrating the best features available in the market, innovative new features by Xantrex and balance-of-systems components, the XW Hybrid Inverter/Charger's design makes installation quicker and easier. The XW offers high efficiency and unprecedented surge capacity to maximize the owner's return on investment. No other inverter/charger looks or performs like the XW.

XW Series Inverter / Charger Features:

- ▶ True sine wave output
- ▶ 120/240 volt AC split-phase operation
- ▶ Dual AC inputs
- ▶ Integrated design to minimize external balance-of-system components
- ▶ XanBus™-enabled network communication
- ▶ Certified to UL1741 and CSA for utility-interactive applications
- ▶ Unprecedented surge capacity
- ▶ Efficient, power factor corrected, high-current, multistage battery charging

Optional Accessories:

| Item | Part Number |
|---|-------------|
| ▶ XW Power Distribution Panel | 865-1015 |
| ▶ XW Connection Kit for Second Inverter | 865-1020 |
| ▶ XW Conduit Box | 865-1025 |
| ▶ XW Solar Charge Controller | 865-1030 |
| ▶ XW System Control Panel | 865-1050 |
| ▶ XW Automatic Generator Start | 865-1060 |
